

How to make a Tractor

You will need:

- 1 cardboard tube
- 1 piece of bark or cork
- 1 piece of white paper
- Paint
- Paintbrush
- Glue
- Scissors

What to do:

1. Take the cardboard tube and cut off 4cms of it from the end. Divide the end piece into 1cm strips and cut to form wheels.
2. Make two incisions 4cms apart and cut down the length of the cardboard tube. Fold this piece of card upward to form the windscreen of the tractor.
3. Now paint the wheels and the main body of the tractor.
4. Stick the wheels onto the body of the tractor.
5. Draw a windscreen onto the piece of white paper, cut it out and stick it onto the cardboard windscreen.
6. Take the piece of bark/cork and carefully glue onto the tractor in front of the windscreen.

Reflection: Let us give thanks to God this Harvest time for the farmers bringing in the Harvest for us.
